

## Summary of 2007 Virginia Statewide Point-In-Time Count

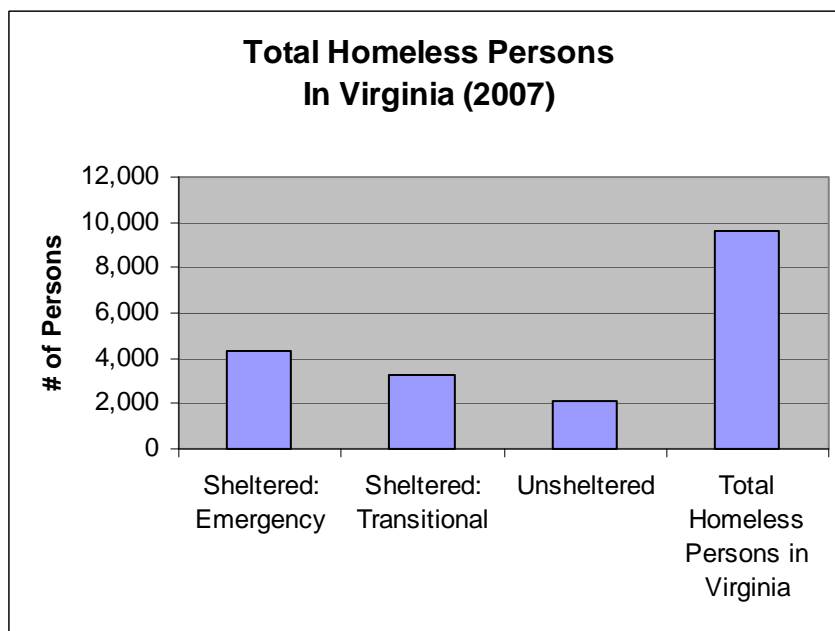

Note: The 2007 Virginia Statewide Point-In-Time Count was conducted by continua of care throughout Virginia during January 2007. Each CoC conducted a sheltered count and unsheltered count of homeless persons in their jurisdiction. Sheltered persons are individuals, children, and unaccompanied youth sleeping in emergency shelters, transitional housing, residential programs for youth, and anyone using a hotel/motel/apartment voucher. Unsheltered persons are generally considered chronically homeless.

Results of the 2007 Virginia Statewide Point-In-Time Count are as follows:
